Psyclapse's horizontally scrolling shoot 'em up provides a decent, if slightly difficult blast. So if you want to destroy the planet of Draconia, but need a little help, try typing

XR3ITURBONUTTERBASTARD

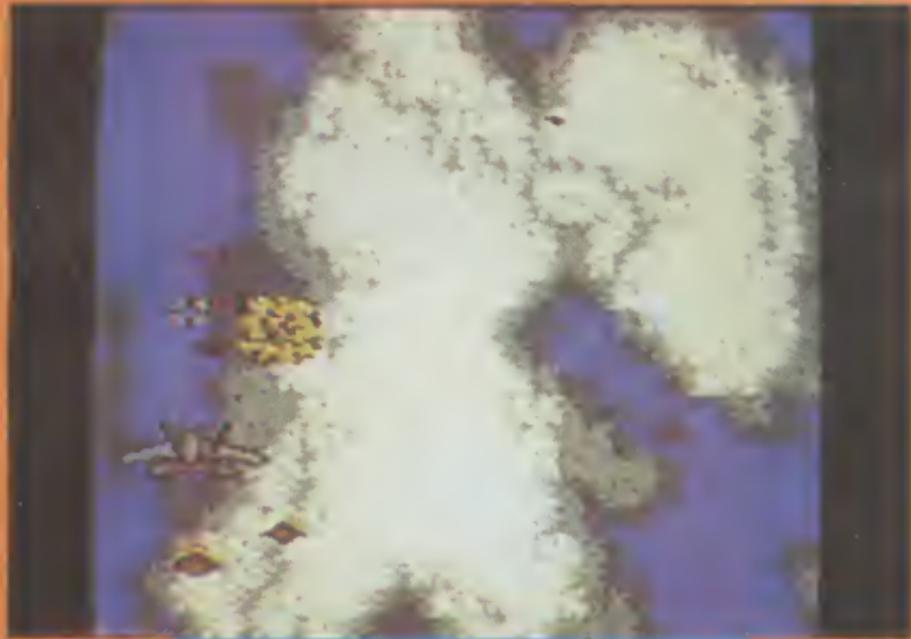

While the game is in progress. You can't do it if the game is paused, so get a friend to help. You are automatically given infinite (or at least large amounts of) shield, together with a full supply of cannons and lasers. These are drained as you play, though, so Loadsamoney's car has to be typed in again to top up your ammo.

Ocean's tricky shoot 'em up is made a lot easier when you've got infinite lives to play with. Type in the following listing. RUN it and load in Typhoon when prompted.

Although CU published a fairly comprehensive playguide and map for Palace's blockbuster hack'n'slay game in the September issue, some of you STILL won't be able to get very far. Never fear — the listing below gives Barble (or Marla) Infinite Lives. Type it in, RUN it and follow the prompt to load in the game.

```
1 FORX-312TO378:READY:C-C+Y:POKEX,Y:  
NEXT  
2 IF C=6887THENPOKE157,128:SYS312  
3 PRINT "DATA ERROR"  
4 DATA 32,44,247,32,108,245,169,76,  
141,56,3,169,83,141,57,3,169,1,141  
5 DATA 58,3,76,168,2,72,77,80,169,  
97,141,178,3,169,1,141,179,3,104  
6 DATA 76,81,3,72,169,113,141,214,

6 DATA 96,115,1,169,165,141,113,138,

```

With the aid of the map, you should now be able to defeat Drax without further ado.
